## PROGRAMMING AND PROFESSIONAL SKILLS

Experienced with building Full MEAN Stack applications using HTML5, CSS3, JavaScript, jQuery, AngularJS, AJAX, Express, Node.js, RESTful APIs, and Agile Development.

Proficient in designing web applications using Angular Material Design, Ionic Material Design, Photoshop, and Bootstrap for modern and responsive UI/UX.

Well-versed in implementing goal-oriented team participation, managing/communicating with teams overseas, and creating graphic designs with Photoshop.

## EXPERIENCE

### CODER CAMPS – *Full Stack Web Developer (Intern), Oakland CA* – October 2015 to Present

Debugging and advising for development of web applications built with the MEAN Stack using HTML5, CSS3, MongoDB, Express, AngularJS, Angular Material, Ionic, APIs and Node.js.

Improving problem solving and communication skills through working on individual/ group coding challenges and utilizing web resources for fixing code and learning new web development tools.

### CODER CAMPS – *Full Stack Web Developer (Student), Oakland CA* – July 2015 to October 2015

Applied hands on learning and agile development to build full stack applications using MongoDB, Express.js, AngularJS, RESTful APIs and Node.js.

Gained experience with various web development tools including Bower, NPM, GitHub, Ionic, Sass, Material design, Nodemailer, and Heroku.

### KANDIANNE'S KREATIONS – *Marketing Materializer (Freelance), Burbank CA* – August 2012 to August 2015

Created customized graphics and web designs using HTML5, CSS3, JavaScript, FTP, Dreamweaver, Google Analytics, and Photoshop.

Maintained and redesigned small business websites while developing content displayed on marketing vehicles including websites, social media and print.

### THINKNOW RESEARCH – *Marketing Manager, Burbank CA* – November 2014 to October 2015

Increased sales opportunities by 70% through production of marketing materials including infographics, HTML/CSS email campaigns, webinars, and printed-promo items.

Made constant updates to WordPress website with plugins, blog posts, page additions/updates, and custom code, as well as maintained online Woo Commerce store.

### THINKNOW RESEARCH – *Business Development Manager, Burbank CA* – July 2014 to November 2014

Used Salesforce, iContact, Ring Lead, and other CRM tools to find potential clients needing human sample for market research.

Developed email campaign system and schedule, which allowed for convenient monitoring of company clientele.

**INLINGUA MADRID** – *Business English Teacher, Madrid Spain* – June 2013 to June 2014

Prepared students for English exams, through intriguing group discussions and interactive assignments.

**WELLS FARGO** – *Personal Banker, Northridge CA* – December 2011 to June 2013

Maintained customer relationships and acquired new customers through communicating benefits of bank products/services.

Conducted detailed customer research to discover ways to improve their banking relationship and solve customer issues.

**PIERRE BUILDERS INC.** – *Marketing Manager, Van Nuys CA* – March 2007 to November 2011

Promoted company through building custom website with HTML, CSS, JavaScript, and maintaining partner and customer relationships.

Utilized social media, HTML/CSS e-mail campaigns, phone and in-person meetings to increase company's sales opportunities and book jobs.

## EDUCATION AND LANGUAGES

**CODER CAMPS** – Full Stack Developer (MEAN Stack)
**CSU, Northridge** – BS in Business Marketing

**ENGLISH** – Native proficiency
**SPANISH** – Mid-level professional proficiency

## WEB PROJECTS

**REGIKNOW** – *Front-End Lead*

A question based social application in which I was responsible for front-end functionality, UI, and design, I also assisted with back-end components like connecting our photo upload API and implementing AJAX calls to get/connect data from database. In addition, using Ionic and Ionic Material Design I developed the front end for the mobile app version of RegiKnow. Developed using HTML5, CSS3, JavaScript, AngularJS, Angular Material, Node.js, Nodemailer, Express.js, MongoDB, Mongoose, Google APIs, Cloudinary, and Passport.js.

**ISTRESSLESS** – *Full-Stack Developer*

A social application allowing users to login and post/edit/delete discussions about stress issues they are facing and how to relieve stress. I built this full stack app within 3 days from scratch, and focused on keeping a clean, simplistic style that allowed the user to interact with features effortlessly. Developed using HTML5, CSS3, JavaScript, AngularJS, Bootstrap, Node.js, Express.js, MongoDB, Mongoose, Google APIs, Cloudinary, and Passport.js.

**COLLEGE FUNDING REMEDIES** – *Front-End Design Lead*

A company helping parents and students with developing a financial strategy on paying for college. I built the current website, which you can view [here,](here,) and am currently working on re-designing and re-creating it, to provide a more modern design and functionality with AngularJS and Material design. Being developed with HTML5, CSS3, JavaScript, AngularJS, Bootstrap, Node.js, and Express.js.
